

For Immediate Release
29/07/2007

**Flexible Output Voltage ranging from
5~48 VDC**

NS Power is proud to announce the release of the NSP-LT6129 Series of 600 watt flexible output switching power supplies.

These switching power supplies offer output voltage factory set point ranges for any voltage requirement from 5 ~ 60 VDC while maintaining all safety approvals. Standard features include Universal AC Input Range with Active Power Factor Correction; Remote Sense; Remote on/off Control; Power Good Signal; Current Monitor; High Efficiency Operation up to 85%; Over Voltage/Current/Temperature Protection Circuits; and Tight Regulation. These supplies are safety certified to UL60950-1 / TUV EN60950-1 and bear the CE Mark (Low Voltage Directive) with FCC / EN55022 Class B Emissions.

All supplies are in production with evaluation quantities available from stock and production deliveries 8 weeks aro. Specifications are available for download from <http://www.nspower.net> Pricing is as low as \$89.95 for 1000 piece quantities. Contact NSP at 800-670-0225 or sales@nspower.com for sales and technical support. For further information and reader enquiries: Michael Douglas, 284 Lake Mead Blvd, Ste 139, Henderson, Nevada, 89014
